EDUCATION

Bachelor of Technology
Computer Science &
Engineering
Heritage Institute of
Technology, Kolkata, WB

Affiliated To Maulana Abul
Kalam Azad University of
Technology, Kolkata
Result: **8.0 DGPA**

Higher Secondary:
St. Michael's High School,
Affiliated to Central Board of
Secondary Education
Result: **81.40%**

Secondary:
St. Karen's High School,
Affiliated to Council for the
Indian School Certificate
Examination.
Result: **91.14%**

ANURAG PUSHKAR

PROFESSIONAL SUMMARY

Seasoned Senior Software Developer with a robust skill set, adept at self-managing independent projects and excelling in collaborative team environments. Proven ability to deliver high-quality software solutions and drive productivity within dynamic teams.

SKILLS/WORKING EXPERIENCE

- Data Structures & Algo
- System Designs [HLD, LLD]
- **C# Programming Language [Main]**
- Java Programming Language
- Python Programming Language
- SQL Database – PostgreSQL/MS SQL
- NoSQL Database - OpenSearch DB
- Document Database – MongoDB
- Amazon Web Services [Cloud Infrastructure]
- Version Control- [Bitbucket]
- CI/CD -using TeamCity as Deployment Tool
- Docker [using Docker Desktop]
- Argo [Workflow Automation Framework]
- **Dot Net Web API & Testing Frameworks**
- Dotnet WinForms
- API Test Tool - Postman

WORK HISTORY [PROJECTS]

June 2021 - Current

Preqin India Pvt Ltd - Senior Engineer, Bengaluru, India

[Specializes in delivering comprehensive data and analytics solutions for the **alternative assets market**, including private equity, venture capital, and hedge funds etc.,]

- Designed scalable architecture for applications [**ESG Module** for Web Application] to easily accommodate future growth in user base or functionality expansion.
- Developed comprehensive test plans, executing manual and automated tests to ensure optimal software quality.
- Developed **ETL** [Extract Transform Load] Applications in Python using Argo Workflow for Container Orchestration.
- Developed a few parts of ESG Module for **CRM** application for Preqin from scratch and added reusable code libraries to expedite future development efforts, reducing time-to-market for new features.
- Integrated third-party APIs to expand application capabilities and improve overall performance. Worked upon feeds Module [Data Extraction APIs]
- Reduced technical debt by refactoring legacy and new code for improved maintainability and reduced error rates. Also optimized the Postgres database schemas for better performance. Also worked on document Database {MongoDB} and NoSQL databases.

LANGUAGES

English

Hindi

September 2019 - June 2021

Infosys Ltd - Technology Analyst, Bengaluru, India

- Worked for the client company **LexisNexis** [Provides comprehensive legal research tools, news, business insights, and risk management solutions] being in client operated team itself and focused on Risk Solutions Module.
- Worked on **Migration Project**. Modularized and updated old code bases to modern development standards, reducing operating costs, and improving functionality. Designed databases and table schemas for web applications.
- Created integration and unit testing projects for many modules from scratch.
- Mentored junior developers by providing guidance on best practices, coding techniques, and problem-solving skills.
- Reduced technical debt by refactoring legacy code for improved maintainability and reduced error rates.

July 2017 - August 2019

Tata Consultancy Services Ltd - Systems Engineer, Mumbai, India

- Worked for client company '**Allcargo Logistics**' mainly on Operational Accounting Module that deal with Invoicing Software.
- Frequently served as Level 3 Support, developing and troubleshooting applications under tight deadlines
- Developed custom software solutions for various business needs, resulting in improved productivity.
- Improved system performance by identifying and resolving technical issues in a timely manner.
- Coordinated with stakeholders throughout all stages of the project lifecycle from inception to completion.
- Worked effectively in fast-paced environments.

CERTIFICATIONS/LEARNINGS

- Solid Principles [Scalers]
- Understanding Kafka and Zookeeper [Scaler]
- Understanding Elasticsearch in depth [Scaler]
- Fundamentals of Docker and Kubernetes [Scaler]
- Docker [Udemy]
- CICD [Udemy]
